- Experienced Java Full Stack Developer with 4.8 years of expertise in **Java, Spring Boot and Microservices** for robust back-end solutions, coupled with proficiency in **SQL**
- Strong expertise in building RESTful APIs, optimizing system performance, and implementing secure, cloud-based solutions with proven ability to improve system reliability, enhance code quality, and deliver high-impact solutions

WORK EXPERIENCE

Senior Software Engineer (LTM) **Aug 2024 –**
Citi Bank Pune, MH

- Designed and developed **low-latency, high-throughput REST APIs** using Java and Spring Boot for critical banking services.
- Improved API performance by implementing **caching and optimized concurrency handling**, reducing response latency.
- Effectively leveraged **GitHub Copilot** to accelerated code development by assisting with boilerplate code, code refactoring, test case generation, and documentation.
- Led **zero-downtime deployments** using CI/CD pipelines, ensuring seamless releases in a high-availability environment.
- Contributed to **system design discussions, code reviews, and production issue resolution**, demonstrating strong ownership and problem-solving skills.

Senior Systems Engineer (Infosys Ltd) **Jan 2024 – Aug 2024**
Pepsico Pune, MH

- Developed and deployed Spring Boot applications on **Azure cloud**, integrating services like Azure Key Vault and SharePoint.
- Implemented **secure authentication using Okta OAuth with Spring Security**, ensuring stateless and secure API access
- Implemented Okta Oauth security in customization with Spring security to enable state less authentication and authorization process.

Systems Engineer (Infosys Ltd) **Dec 2021 – Dec 2023**
Sysco Pune, MH

- Developed **3 microservices from scratch** with **90%+ code coverage**, ensuring high reliability and maintainability.
- Delivered customer-facing features improving sales workflows using **React.js**
- Resolved critical production issues and received **client recognition for effective problem-solving and collaboration**. Help improving unit test coverage from 55% to 90%.

TECHNICAL KNOWLEDGE

Programming Languages: Java, JavaScript
Technologies: Spring Boot, Spring MVC**,** SQL, MySQL, Hibernate & JPA , React.js , HTML , CSS, GitHub Copilot
Cloud Technologies: Azure Cloud, OpenShift, Jenkins
Project management: Jira, Confluence, Agile Methodology (SCRUM)
Other Skills: Microservices, Splunk, Postman, Git, Jenkins, Apache Kafka, Swagger, Junit, Mockito, Solid Principles, Object Oriented Programming, Design Patterns

CERTIFICATION

Spring Boot Certified Professional 2024 by VMWare

EDUCATION

Bachelors Of Engineering
Pune University [2015-2019]

Candidate Skill Report

by codingninjas & naukri

Akib Bilal Attar View complete coding profile

Top skills

Evaluated by tests and Coding Ninjas experts

	Proficiency
Java	86%
DSA	83%

138 difficult problems solved

Mastered complex topics across different skills

Coding problems solved — **252** DSA problems

Trained to be industry ready

Candidate put in dedicated efforts over 5 months of intensive training

Data Structures in JAVA

Duration: 3 months | Awarded in: February, 2023

Introduction to JAVA

Duration: 2 months | Awarded in: September, 2022

Ankush Singla (CEO, Coding Ninjas)
