Summary

Senior Software Engineer with 9 years of experience in designing, developing, and deploying scalable enterprise applications using Java and cloud-native technologies. Strong expertise in Java, Spring Boot, Microservices, AWS, Docker, and Kubernetes with proven experience in building high-performance distributed systems. Skilled in REST APIs, CI/CD pipelines, cloud infrastructure, and agile development methodologies. Experienced in leading teams, mentoring developers, and driving end-to-end software delivery.

Education

Rajiv Gandhi Proudyogiki Vishwavidyalaya — Bhopal, Madhya Pradesh
Bachelor of Engineering (B.E) in Electronic & Communication — April 2014

Experience

Accenture UK — Newcastle upon Tyne, UK
Senior Software Engineer — Nov-2024 to Current

Responsibilities

- Designed and developed scalable microservices using Java 17 and Spring Boot.
- Migrated monolithic applications to microservices architecture improving scalability and maintainability.
- Built and deployed containerized applications using Docker and Kubernetes (EKS).
- Developed RESTful APIs for enterprise applications handling millions of requests daily.
- Implemented CI/CD pipelines using Jenkins and GitHub Actions reducing deployment time by 40%.
- Integrated AWS services including EC2, S3, RDS, Lambda, and CloudWatch.
- Improved application performance by optimizing SQL queries and implementing caching strategies.
- Led a team of 6 developers and mentored junior engineers.
- Collaborated with DevOps and QA teams in Agile sprint cycles.

Achievements

- Reduced production incidents by 35% through proactive monitoring and logging.
- Improved deployment reliability using Kubernetes rolling updates and auto-scaling.
- Increased system throughput by 50% through performance tuning and asynchronous processing.

Environment

- Java 17, Spring Boot, AWS, Docker, Kubernetes, Kafka, PostgreSQL, Jenkins, GitHub Actions

Accenture India Pune, Maharashtra
Senior Software Engineer Dec-2019 – Nov-2024

Responsibilities

- Developed backend services using Java 8 and Spring Boot.
- Implemented authentication and authorization using Spring Security and JWT.
- Built APIs and integrated third-party services.
- Worked on Docker containerization and cloud deployments.
- Participated in code reviews and production support.
- Wrote unit and integration tests using JUnit and Mockito.

Environment

- Java 8, Spring Boot, Hibernate, Docker, AWS, MySQL, Maven, Jenkins

Cognizant Technology Solutions Pune, Maharashtra
Java Developer Aug-2018 – Dec-2019

Responsibilities

- Developed enterprise web applications using Java and Spring MVC.
- Worked with REST APIs and database integrations.
- Fixed bugs and enhanced application functionality.
- Supported release and deployment activities.

Environment

- Java, Spring MVC, Hibernate, Oracle, Maven, Git

HCL Technologies Noida, Uttar Pradesh
Java Developer Jan-2016 – Aug-2017

Responsibilities

- Developed enterprise web applications using Java and Spring MVC.
- Worked with REST APIs and database integrations.
- Fixed bugs and enhanced application functionality.
- Supported release and deployment activities.

Environment

- Java, Spring MVC, Hibernate, Oracle, Maven, Git

Skills

Languages

- Java 8/11/17
- SQL
- JavaScript
- Shell Scripting
- TypeScript

Frameworks & Backend

- Spring Boot
- Spring MVC
- Spring Security
- Spring Data JPA
- Hibernate
- Microservices Architecture

Cloud & DevOps

- AWS (EC2, S3, RDS, Lambda, ECS, EKS, CloudWatch, IAM)
- Docker
- Kubernetes
- Jenkins
- GitHub Actions

Databases

- MySQL
- PostgreSQL
- MongoDB
- Oracle

Messaging & Streaming

- Kafka
- RabbitMQ

Tools

- Git
- Maven
- Gradle
- JIRA
- SonarQube

Methodologies

- Agile/Scrum
- CI/CD
- TDD
