Objective

Software Engineer with **7.5+** years of experience building scalable, high-quality product features using **Java** and **React with TypeScript**. Currently part of the **Mendix RnD** team, developing Studio Pro connectors and platform extensions such as Authentication Core, Send Email, and Connector Kit. Strong background in **REST APIs**, **Spring Framework**, and modern system design. Seeking a **product-based** engineering role focused on ownership, problem-solving, and delivering reliable, customer-centric solutions at scale.

Education

Birla Institute of Technology and Science, Pilani May 2025
Master of Technology - Software Systems *CGPA: 8.2/10.00*

- **Coursework:** Data Structures and Algorithms, Software Architectures, Object Oriented Analysis and Design, Software Engineering and Management

Sardar Patel Institute of Technology, Mumbai May 2018
Bachelor of Engineering - Information Technology *CGPA: 6.6/10.00*

- **Coursework:** Software Engineering, Database Management System, Operating Systems, System and Web Security

Technical Skills

Languages: Java, Typescript, JavaScript, C#
Frameworks: React, .NET, Spring Boot, JUnit
Databases: PostgreSQL, MySql
Version Control: Git, SVN
IDEs: Intellij IDEA, Visual Studio, VS Code, DBeaver, Postman
Other: Gradle, Maven, SonarQube, Synk, VeraCode, REST APIs, Gitlab, Tailwind CSS, Liquibase

Experience

Siemens Digital Industries Software India Pvt Ltd Aug 2022 – Present
Software Engineer *Pune, MH*

- Designed and developed **Studio Pro connectors** and **extensions** used across the Mendix ecosystem, including **Authentication Core**, **Send Email**, **Connector Kit**, and **platform-level connectors**.
- Built scalable, reusable **Java and .NET** based backend components and **React + TypeScript UI** extensions, ensuring seamless integration with Mendix Studio Pro extensibility APIs
- Design and develope Platform connectors for **Mendix Studio Pro** - Low code software development tool.
- Collaborated with cross-functional teams (PMs, architects, QA) to deliver **product-grade features** from design to production.
- Contributed to code reviews, architectural discussions, and product quality initiatives following **enterprise engineering standards**.

Coditas Solutions LLP Aug 2021 – Jul 2022
Software Engineer *Pune, MH*

- Design and develope **RESTful APIs** for different modules in the project as per the requirement.
- All the functionality is implemented using **Spring Boot** and **Hibernate** ORM. Implemented Java EE components using **Spring MVC**, **Spring Transactions**, and **Spring Security** modules.
- Involved in the Analysis, Design, Development, and Deployment phases of the application lifecycle.

Infosys Limited May 2018 – Jul 2021
Senior Systems Engineer *Pune, MH*

- Experience with developing **J2EE** applications using **Java**, **FEBA**, **HTML5**, **CSS3**, **JavaScript**, **jQuery**, **XML**, and **JSON**
- Implement various customer-focused projects to improve the overall customer satisfaction score from **3.5** to **4.2** out of **5** of the application.
