GANESH BABU A S

JAVA FULL STACK DEVELOPER | SPRING BOOT | MICROSERVICES | ANGULAR | REST APIs | SPRING SECURITY | SQL

+91 93607 18071 | ganeshbabu.pmk@gmail.com | Immediate Joiner

PROFESSIONAL SUMMARY

Senior Java Full Stack Developer with 5+ years of experience designing, developing, enhancing, and maintaining enterprise applications for banking and financial services. Strong hands-on experience with Java, Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, Microservices, REST APIs, Angular, and TypeScript. Experienced in developing secure backend services, integrating frontend applications with REST APIs, implementing authentication and authorization, designing reusable application components, and working with relational databases. Hands-on experience with Maven, Jenkins, Git, Bitbucket, Agile/Scrum, and enterprise application deployments across SIT and UAT environments. Experienced in working with onshore stakeholders and delivering solutions within regulated banking environments.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL

Backend & Frameworks: Java, Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, Microservices, Collections, Exception Handling

APIs & Integration: RESTful API Design & Development, JSON, OAuth, Token-Based Authentication, Service Integration

Frontend: Angular, TypeScript, JavaScript, HTML5, CSS3, Angular Components & Services, Frontend-Backend Integration

Database: MySQL, PostgreSQL, Microsoft SQL Server, Oracle, SQL Query Development, Database Design

Build, CI/CD & Tools: Maven, Jenkins, Git, GitHub, Bitbucket, SourceTree, IntelliJ IDEA, Eclipse, Spring Tool Suite, VS Code

Practices: Agile/Scrum, SDLC, Application Maintenance, Production Support, Debugging & Troubleshooting, Defect Resolution, SIT/UAT Deployment

PROFESSIONAL EXPERIENCE

Virtusa Consulting Services Pvt Ltd — Lead Software Engineer Mar 2021 – Jul 2026

Banking & Financial Services Client: CITI Bank | Onsite Engagement: Japan (May 2023 – Mar 2026)

Projects: Finqry Batch Application | Finqry Web Application | Maestro

- Designed and developed enterprise applications end-to-end using Java, Spring Boot, Spring MVC, Angular, TypeScript, and REST APIs, supporting enterprise file-automation and business-workflow systems for a global banking client.
- Owned full-stack feature delivery, integrating Angular frontend modules with Java/Spring REST services and implementing authentication, authorization, and secure data-access business logic.
- Contributed to reusable enterprise components and application enhancements adopted across multiple modules, improving development efficiency across the platform.
- Supported file-handling and document-processing capabilities as part of broader banking workflow automation initiatives.
- Drove the complete application lifecycle — enhancement, defect resolution, and technical troubleshooting — alongside Maven builds and Jenkins-based CI/CD deployments across SIT and UAT environments within an Agile delivery model.

- Collaborated directly with onshore stakeholders in Japan across a regulated banking environment, ensuring delivery aligned to strict compliance, security, and quality standards.

KEY PROJECTS

Finqry Batch Application

Technology: Java, Spring Boot, Spring MVC, Hibernate, REST APIs, Angular, TypeScript, SQL, Maven, Jenkins

- Developed enterprise file-automation functionality spanning upload, processing, and download workflows for core banking operations.
- Implemented Excel, CSV, and Binary file-processing modules tailored to distinct business and user-specific requirements.
- Delivered Excel export functionality with structured tables, formatting, and customized presentation logic for business reporting.
- Implemented PDF ingestion and image-based content generation into Excel outputs.
- Supported enhancement, testing, troubleshooting, and deployment across SIT and UAT release cycles.

Finqry Web Application

Technology: Java, Spring Boot, Spring Security, Angular, TypeScript, REST APIs, SQL

- Enhanced enterprise web application modules supporting file management and core banking business workflows.
- Built a reusable, generic pagination component for master screens, improving data navigation and usability across multiple modules.
- Integrated Angular/TypeScript frontend with Java-based REST services for end-to-end feature delivery.
- Resolved production defects and delivered functional enhancements through structured issue analysis.
- Participated in Agile ceremonies, testing, deployment, and production-oriented troubleshooting.

Maestro

Technology: Java, Spring, Angular, TypeScript, REST APIs, SQL, Jenkins

- Contributed to development and maintenance of enterprise applications within the banking application ecosystem.
- Built components supporting file processing, data handling, and business-specific automation workflows.
- Worked across frontend and backend layers to implement and integrate application functionality.
- Supported Jenkins-based builds and deployments across SIT and UAT environments.
- Engaged in defect analysis, technical troubleshooting, and Agile ceremonies.

EDUCATION

M.Sc. Electronics — Government Arts College, Alagappa University, Paramakudi, Tamil Nadu (2016), CGPA: 7.3

B.Sc. Electronics — Government Arts College, Alagappa University, Paramakudi, Tamil Nadu (2014), CGPA: 7.2

CERTIFICATIONS

- Oracle Certified Associate (OCA) — Java SE Programmer 8
