Vipul Rohilla

Senior Software Engineer

+91 8708172547 vipulrohilla05@gmail.com LinkedIn Noida,Uttarpradesh

PROFESSIONAL SUMMARY

Java Backend Developer with nearly **4.3 years of hands-on experience** in building and scaling high-performance microservices using **Spring Boot, Java 8**, and **Kafka**. Proven track record in **modernizing legacy applications**, ensuring secure communications with **OAuth2**, and deploying scalable systems using **Docker and Kubernetes**. Adept in **CI/CD**, **AWS Cloud**, and **database optimization (Oracle/MySQL)** across **Banking**, **Fintech**, and Real Estate domains. Strong advocate of clean code, Agile delivery, and resilient system design.

SKILLS

- **Languages & Frameworks:** Java 8 , Spring Boot, Hibernate, JPA
- **Architecture:** Microservices, REST APIs, Event-Driven Architecture
- **Cloud & DevOps:** AWS (EC2, EKS, S3), Docker, Kubernetes, Jenkins
- **Security:** JWT, OAuth2, Spring Security
- **Messaging:** Apache Kafka
- **Databases:** MySQL, Oracle
- **Tools:** Maven, Git, GitHub
- **Methodologies:** Agile, Scrum, CI/CD

PROFESSIONAL EXPERIENCE

Newgen Software

Noida, India

Software Engineer

11/2023 - Present

Client:IDFC Bank –(Fintech Domain)

- Migrated legacy systems to **Spring Boot (Java 8)**, reducing deployment delays by 40% and improving maintainability.
- Secured microservices using **OAuth2**, handling over **1,000 secure API transactions** daily across distributed systems.
- Developed event-driven architecture with **Kafka**, enabling real-time transaction processing and improved data reliability.
- Automated CI/CD workflows using **Jenkins**, reducing release cycles by 50% and minimizing manual effort.

Client: Central Bank of India – Project: Bank Guarantee System (Banking Domain)

- Automated **Bank Guarantee (BG)** lifecycle, saving 20+ hours/month in manual operations and improving SLA adherence.
- Built service discovery and routing with **Spring Cloud Gateway & Eureka**, enhancing system resilience and uptime.
- Tuned **Oracle database queries** using Hibernate, cutting report generation time by over 65% during peak hours.

Nagarro Software Pvt. Ltd.

Gurugram, India

Associate Engineer

09/2021 - 11/2023

Client:E-CommerceEuropean Client

- Implemented Trustly payment integration for European e-commerce platform using **Java 8 & Spring Boot**, expanding payment options and boosting transaction revenue.
- Created and integrated **RESTful APIs with Swagger** documentation, improving payment processing efficiency and reducing frontend/backend integration issues.
- Enhanced transaction security by implementing **HMAC encryption** and introducing a structured error code system for clear user feedback.
- Used **Kafka** to process real-time payment notifications, ensuring faster settlements and improved customer experience.
- Deployed microservices on **AWS EC2 and Elastic Beanstalk**, enabling high availability, scalability, and faster rollbacks during releases.
- Achieved 85% unit test coverage with **JUnit**, significantly reducing post-release bugs and strengthening system stability.

ACHIEVEMENTS

- Launched IDFC Bank Portal, enabling real-time financial insights and reporting.
- Cut deployment time by 40% through monolith-to-microservice migration.
- Improved system scalability by 30% using Kafka and Spring Cloud infrastructure.
- Strengthened security posture with centralized JWT-based authentication.
- Accelerated onboarding and deployment using Docker + Kubernetes stack.

EDUCATION

Chandigarh University, Mohali

Punjab, India

BachelorofTechnology(B.Tech) - CSE
